## Projects

- **Health Care App**  
It works as a Livewire of Connectivity connecting different healthcare stakeholders that include clinics, pharmacies, blood banks, hospitals, ambulances, organ donors, laboratories and patients on a single platform.
- **ERP App**  
This platform provides all those functionalities, so that a business man can manage their business properly. In this Application we have lots of features. For example, Hiring, managing employee, shift management etc.
- **Service Provider App**  
It's a platform where a common man can book their services at an affordable price, in this app we have services like Electrician, Carpenter, Home Appliance, Painting etc.
- **LEKH**  
It's Similar to Khat book application, but in this app all data store in locally, when customer want to save or sync their data to the server they can.
